

April 22, 2016

From April 23 to April 24, 2016, PCC Structural's Large Parts Campus on Johnson Creek Boulevard will undergo normally scheduled annual maintenance. Work to be performed will include:

- Annual preventative maintenance and upgrades on electrical systems, including motors, switches, buss ducts, and breakers
- Annual preventative maintenance and upgrades on mechanical systems, including air compressors, pumps/valves, boilers, and cranes
- Removal of soil related to DEQ-managed remedial investigation
