Re: **Type 1 Notice to Construct**
Permit No.: 03-2674-ST-01
Application No.: 028538

On Feb. 19, 2016, DEQ received your Type 1 NC application. PCC Structural, Inc. (SSBO) will redirect the Swing Grind Booth Cyclone exhaust from the roof to a baghouse. Install a new high performance baghouse to capture exhaust from the SSBO Torch Burnoff Booth operations. If you have any questions, call Greg Grunow at 503-229-5690.

Based on the information submitted in this application, DEQ has determined this construction/modification is a Type 1 change and you may proceed with construction 10 days after DEQ received your notification. In Accordance with OAR 340-210-0240, (3)(a) & (3)(b), notification of completion and start up of modification must be received by the Department within 30 days.

In addition to meeting the air quality standards, your facility is also obligated to operate in compliance with the daytime and nighttime noise standards set forth in Oregon Administrative Rule (OAR) 340-35-035(1). Noise regulations and all other regulations can now be found on line at <http://www.deq.state.or.us/aa/rules/index.htm>.

Sincerely,

Edith M McMorrine, Permit Coordinator
Air Quality Program Northwest Region
